Security and privacy

Change your security and privacy settings.

Security

Login verification

☑ Verify login requests.

After you log in, Twitter will send a text message to +97433296480 with the code you'll need to access your account.

Get Backup Code

Save this backup code to ensure that you can still log in if you ever lose access to your device.

Generate app password

Generate a temporary password to log in to devices and apps that require Twitter credentials.

Password reset

☑ Require personal information to reset my password

When you check this box, you will be required to verify additional information before you can request a password reset with just your @username. If you have a phone number on your account, you will be asked to verify that phone number before you can request a password reset with just your email address.

Log in with code.

○ Allow my account to log in with either a password or login code

You are not eligible for this option because you have enabled login verification.
Learn more

◉ Always require a password to log in to my account

You will be asked for your password every time that you log in. This means you will not be able to log in by simply receiving a login code (via text or email).
